CUSTOMER SUCCESS PROFESSIONAL

See my full story at neilvinci.com

Customer Success professional and AI Native who developed a global B2B SaaS career while completing an undergraduate degree in Psychology. Brings experience in stakeholder management, customer lifecycle engagement, commercial opportunity qualification, and cross-functional collaboration, with a track record of helping customers realize business value while contributing to retention and revenue growth.

EXPERIENCE

Account and Product Specialist | SMB, Enterprise Support

Nov 2025 – Present

ClickUp · Remote

- Partner with CSMs/TAMs to mitigate account risk across adoption, billing, access, and account-management issues, coordinating cross-functional resolutions through live messaging and email to protect customer relationships and renewals.
- Own complex account-management escalations for high-value B2B customers, coordinating Sales, CSM/TAM, Billing, Finance, Deal Desk, Legal, and Marketing to resolve commercial and account issues.
- Run 10–15 daily proactive check-ins with self-service customers across emerging markets, identifying adoption and account-management blockers early to strengthen engagement and renewal readiness.
- Identify and qualify commercial opportunities through customer conversations, using business need, projected value, and existing Sales engagement to assess AE involvement, with ~$5K as a key qualification benchmark.
- Negotiate concession requests with customers, balancing policy and customer need across Leadership, Billing, Finance, Deal Desk, and Sales.
- Support customers across APAC, EMEA, LATAM, and AMER, delivering consultative product and account guidance alongside global teams.
- Guide new self-service customers through onboarding, covering workspace setup, best practices, and adoption strategy to accelerate time-to-value.
- Partner with Knowledge Management to improve operational documentation and support processes, flagging high-potential customer engagements into Sales opportunities.

Associate, Service Delivery and Knowledge Management

Jun 2023 – Oct 2025

Sutherland · Spotify Project · Manila, Philippines

- Delivered support to Spotify users, artists, and creators across account, subscription, and platform inquiries, resolving 8,000+ cases at 96% CSAT and 91% first-contact resolution.
- Represented the Manila site on Knowledge Management initiatives, validating new processes, workflows, and tools with client stakeholders before rollout.
- Helped pilot and launch Spotify's native support CRM developed with LivePerson, supporting workflow adoption and consistent service delivery.
- Led SOP and knowledge-base optimization in Guru, refining guidance for fraud scenarios, politically sensitive interactions, and escalation handling to clarify expected next steps for frontline teams.
- Evaluated new workflows and knowledge resources to improve operational effectiveness.
- Served as a primary recruitment contributor for Spotify Wrapped 2025 campaign-based hiring, supporting multiple lines of business across Sutherland's support and services organization.
